@jobname    These jobs run last business day of the week  
             but NOT when the last business day of the week  
             and last business day of the month fall on the same  
             calendar day.

%jobname    These jobs run last business day of the month

You will see that wherever there is a @jobname on the flow  
there is a %jobname job opposite.
