

LoanIQ (LIQ) Processing Overview

Daily Processing

LoanIQ daily processing (flowlid.vsd)

Processes account balance & movement data from GL

Generic module for daily processing (flowmid_ss_gl_interface.vsd)

Captures daily fx rates data from GS

Updates daily fx rate data to nw01.s.mi.exchrte.mastfile(+)

Insert current day's fx rates to nw_mi_daily_fx_rate table

Loads LIQ daily balance & movement data into repositories, tables nw_mi_bal_repository & nw_mvt_repository

Updates account balances to nw01.s.acctbaln.mastfile(+1)

Updates account interests to nw01.s.acctintr.mastfile(+1)

Nw_fee_income_tran daily processing (flowfe2.vsd)

Extract LIQ fees data from the account movement repository

Loads into nw_fee_income_tran

Weekly processing

Generic module for LBDW processing (flowmiw_ss_gl_interface.vsd)

Processes account balaces & interest data for the week.

Project amounts to be accrued for non-business day processing using the immediate previous available amount

Converts accrued amounts from non-AUD into AUD for accrued interest, averages & minimum balances calculations.

Extracts the interest_accrued_balance for the LBDW.

LoanIQ weekly processing (flowliw.vsd, flowliw_fees.vsd)

Processes weekly facility, outstanding static data and fees data from LIQ

Create the tables:

nw_li_facility_w_snap
nw_li_risktype_w_snap
nw_li_all_w_snap
nw_li_w_snap
nw_li_fees_w_snap

Weekly Downstreams

nw_pblm_acct (flowpb3p.vsd, flowpb3l.vsd, flowpb3z.vsd)
nw_prtf_move_w_snap (flowx3w.vsd)

Monthly processing

Generic module processing for LBDM (flowmim_ss_gl_interface.vsd)

Processes account balances & interest data for the week.

Project amounts to be accrued for non-business day processing using the immediate previous available amount

Converts accrued amounts from non-AUD into AUD for accrued interest, averages & minimum balances calculations.

Create new master files:
nw01.s.mi.exchrte.mastfile(+1)
nw01.s.acctbaln.mastfile(+1)
nw01.s.acctintr.mastfile(+1)
Extracts the interest_accrued_balance for the LBDM.

LoanIQ monthly processing (flowlim.vsd, flowlim_fees.vsd)

Processes monthly facility, outstanding static data and fees data from LIQ

Create the tables:

nw_li_facility_m_snap
nw_li_risktype_m_snap
nw_li_all_m_snap
nw_li_m_snap
nw_li_fees_m_snap

Monthly Downstreams

nw_pblm_acct_m_snap (flowpb3p.vsd, flowpb3l.vsd, flowpb3z.vsd)
nw_cr_acct_m_snap (flowcr3l.vsd, flowcr3z.vsd)
nw_prtf_move_m_snap (flowx3m.vsd)
nw_all_acct_m_snap (flowacli.vsd, flowac.vsd)
nw_acct_xpos_m_snap (flowae.vsd)

Generic module (flowmim_ss_gl_interface.vsd)

First Calendar day of month only:

Initialise master files:
nw01.s.mi.exchrte.mastfile(+1)
nw01.s.acctbaln.mastfile(+1)
nw01.s.acctintr.mastfile(+1)

Initialise the fx rate table
